Attachments: draft BA ESA informal consultation pkg 20150827 after dkm+lc.docx

Douglas/Lucita,

Thank you for taking the time to do a careful reading of this draft document. Your comments have been incorporated except for the following pieces that I do not have time to do at this moment:

For Lucita:

Ex. 5 AC/DP

For Douglas:

I know that Douglas, Darcy, and Callie are tracking when a letter with this BA actually goes to the FWS and that the end of August was the expectation. I cannot make a realistic judgment when to route the cover letter because I have not written it. The only alibi I have is my involvement in ensuring a Gold King-like incident does not occur on the Superfund Site I am managing. My commitment to EPR has taken priority.

Week of Labor Day: Would 8 September be acceptable for a cover letter routing with the attached BA after finalization and thorough scrubbing of embedded commentary and such?

R/,

Jim: notwithstanding your addressing Lucita's comments on the previous version, this latest version reads very well. Except for one comment on page 17, the rest of my edits, etc. are relatively minor (one of which is for Lucita/Valois' input).

When you return next week, please offer your realistic assessment of when we can begin to route this BA with a draft cover letter to the FWS.

Thanks,

Douglas

Douglas,

I believe I have addressed your review comments with this attached draft. I am not so sure I have understood some of Lucita's comments. I will have to talk to her directly.

With the timeline you sent me, I have a good understanding of my commitment to the project and suspense date for moving this BA to the FWS by 31 August.

I won't be available to meet with you until Monday to receive more feedback.

Sincerely,

James Hanley

Hi Jim: sorry we keep missing each other.

Attached is what we presented to Darcy O'Connor today on various action items for DB. This includes delivery of the BA and cover letter to Fish by the end of the month with the goal of receiving their written concurrence by the end of September. If we don't think we can meet this, Darcy asked that we let her know ASAP.

I am in Friday if you are available to meet to discuss progress.

Thanks again for your important work on this effort,

Douglas K. Minter
